

## Ball above your Feet

- Choke down
- Naturally will have a flatter swing
- Aim more right (if right handed)
- Ball will hook
- Lean in to hill (weight on balls of feet)
- Maintain a stable lower body & good balance

## Ball Below Your Feet

- Bend over quite a bit more than normal  
(rear out, chest down)
- Weight more on heels
- Swing plane will become naturally steeper
- Aim more left (right handed)
- Ball will slice
- Hard to finish swing  
(stay down & don't force anything)

## Uphill Lie

- Go up a club or two
- Due to slope ball will fly higher
- Set up shoulders & hips parallel with slope
- Aim more left  
(if right handed)  
Ball will slice
- Play ball in back in stance
- Make effort to shift weight

## Downhill Lie

- Go down a club or two.
- Due to delofting & slope ball will fly lower (and will roll out more)
- Set up shoulders & hips parallel with slope
- Aim more right (if right handed)
- Ball will draw or hook
- Play ball forward in stance
- Make effort to stay down & shift weight
